BRIEF BACKGROUND & HISTORY

Shrimant Shivaji Raje Naik Nimbalkar

Col. Vinod Marwaha

Shrimant Ram Raje Naik Nimbalkar

Shrimant Sanjeev Raje Naik Nimbalkar

Dr. Jai Singh

IIEBM was established in the year 2000 by **Shrimant Vijaysinh Naik Nimbalkar Alias Shivajiraje, scion of the ruling family of Phaltan, District Satara and Col. Vinod Marwaha, a visionary, entrepreneur and philanthropist.**

Education in the pre-merger era in the State of Phaltan, was provided by the Royal Family. 'His Highness Shrimant Mudhojirao Naik Nimbalkar' ruler of Phaltan State who had established first school in the year 1893.

After the merger of erstwhile princely states with the mainstream Government, the staff of the State of Phaltan was transferred to the Government. This led to the establishment of the **"Phaltan Education Society"** which was registered under the **Bombay Public Trusts Act 1950 on 27th April 1953.**

Thereafter, "The Phaltan Education Society" received strong support from Shrimant Vijaysinh Naik Nimbalkar, who was a firm believer in the cause of education and made it grow by leaps and bounds to its present status.

As all Institutions of The Phaltan Education Society were based out of Phaltan, **Shrimant Vijaysinh Naik Nimbalkar and Col. Vinod Marwaha decided to establish IIEBM in Pune** to afford students from Phaltan region and wards of defense families better corporate exposure and interaction, along with affordable, quality and value based Management education.

Their dream bore fruit when the first batch graduated in the year 2002, and was successfully placed in Indian and multinational companies. Since then there has been no looking back, and **IIEBM has grown to its present stature, and will continue to grow, as we continue to increase our competitiveness, both locally and nationally.**

Encouraging students in building a better tomorrow

Shriman Ramraje Naik Nimbalkar and Dr Jai Singh

IIEBM, Indus Business School Pune recently celebrated its 15th anniversary amidst great fanfare. The programme saw participation of both alumni and present students of the reputed institute. While addressing the students at the function, **Shrimant Ramraje Naik Nimbalkar**, chairman, Maharashtra State Legislative Council and Raja of Phaltan, said, "The government cannot depend only on tax or toll as a source of revenue and hence involvement of educational institutions to identify alternate sources of revenue for developmental works is a must." He further suggested that management institutes like IIEBM and others should design syllabus for 'Public Governance' which will enable bureaucrats and elected officials to govern and administer official matters professionally. He also exhorted the management students to not only look at corporate jobs and joining business houses but also think about joining co-operative banks and local government bodies with a view to bring in professionalism and management approach. This will enhance better revenue and better resource management for the government.

Eminent personalities like **Sanjeev Raje Naik Nimbalkar**, member of Satara Zilla Parishad, **Col Vinod Marwaha**, president and managing trustee, **Dr Jai Singh**, managing director and trustee, Maj Gen GH Israni, **Oommen Verghese** and **Ajit Mirchandani**, attended the programme. On this occasion, Ramraje Naik Nimbalkar also launched the alumni website and asked the alumni and students to stay connected with each other as well as with him as that will be the key to growth.

- Willing to invest minimum 12-14 hours a day for self development and have a thirst for learning.
- Commitment sincerity, willingness to work hard under stress with clearly set goals and high standards for self.

- Adherence to laid down Code of Conduct of the Institute in letter and spirit.

WHAT WE EXPECT FROM PARENTS

- For any learning process or activity to be successful, it must be uninterrupted and there must be no break in the learning process. At IIEBM, we are very grateful to the parents of students for having vested faith in us and sent their child to pursue their higher studies with us.
- Our only appeal to the parents is that they must not break the learning process and not approach the management for their child to be given leave on festivals, for weddings of distant relatives, any other family functions.
- In order for us to be able to do justice to the overall development of the student we request parents to support us and not become a hindrance by making requests which will disrupt or interrupt the learning process that we have planned.

WHAT STUDENTS CAN EXPECT FROM THE INSTITUTE

In addition to the academic rigor, focus on holistic development and high levels of industry interaction students can expect the below mentioned from the institute:

- Easily approachable core management team and staff members who have an 'I CARE' approach towards students.
- A culture where hard work, meritocracy and initiative to take up challenges are encouraged.

ASSURANCE TO PARENTS

Many parents spend their hard earned money for their child's higher education. Some parents take loans and at times mortgage their property / jewelry to borrow money for their child's higher education. We at IIEBM make it a point that the parent's efforts to afford their child's higher education will not go in vain and they shall get every rupee's worth invested by them.

Many a times, students leave their homes for the first time for higher studies. This is another concern of parents as they get worried about how their child will settle in the new environment, adjust to different food, different people etc.

We would like to ensure all parents that the welfare and well being of every student studying at this Institute is our responsibility and that they can be rest assured of their child being cared for and looked after.

GUARANTEE TO CORPORATES

Corporates recruit from the institute based on their interaction with the Trustees, Directors, Placement HODs and other senior staff members of the institute.

It is our guarantee to corporates that they can be rest assured of whatever has been spoken about students with respect to their knowledge, skill sets, commitment and sincerity levels which will be lived up by them to the highest order.

THE "I CARE" APPROACH

Another important issue which we endeavor to inculcate in our staff (academic and administrative) is an attitude of "I CARE" towards the students. The student to us is the reason d`etre of the Institute. This institute has been created to meet the needs of the students in terms of business knowledge¸ improved communication¸ a refined and pleasing personality who can hold his / her own and make his / her presence felt in a business oriented group of people.

The most appropriate way to meet the needs of students is best achieved through an attitude of "I CARE" towards the students. Every interface / interaction of the students with the staff is underscored by an attitude of "I CARE".

Blended learning focus on–use of best possible method of delivering, keeping in mind the complexity of topic and students competency to learn. This Blended learning helps in understanding and learning of regular curriculum in an innovative & effective manner. Apart from the classroom teaching pedagogy students today indeed requires exposure to enhance their employability as per the demand of industry. This necessitates adoption of beyond classroom teaching methodologies, carving problem-based learning approach among them. Since knowledge is no longer concise within the scope of classroom, various methodologies are being practiced to meet the expectation of industries and shorter down the distance between conceptual and practical knowledge.

CLASSROOM METHODOLOGIES

Student Centered Learning

In this approach the responsibility for learning is placed on the student. Students work in pairs or in groups to complete an exercise, or helping each other by asking questions. Students evaluate their own work / progress or the work of their classmates, rather than have teacher mark everything. Student centered classes help students to become more independent and more responsible for how they learn. More control is handed over to students by the teacher.

Flipped Classroom Approach

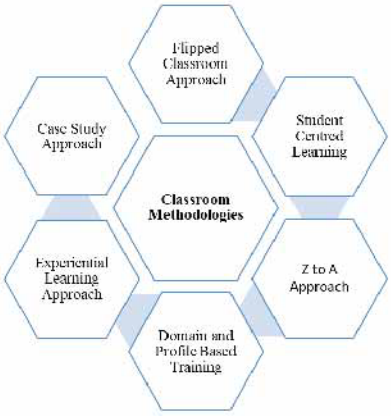

In this approach, students are asked to go through online and offline resources for preliminary understanding of the topic. During class, the analysis and application of these concepts are discussed. This will develop collaborative learning through students input. This promotes the creative, innovative thinking to solve the current business scenarios / cases.

Case Study Approach

For every subject relevant and contemporary case studies focused on corporate life and decision making, are circulated amongst students. This approach develops the students' skills in applying the analytic perspectives, decision tools, and theoretical concepts to the real life scenarios.

Experiential Learning Approach

We adopt the Experiential Learning Approach through role plays, huddles, workshops, scenario analysis, OJT, live projects, internships and many more to help student's correlate theoretical inputs with their practical application.

Domain and Profile Based Training

IIEBM focus on producing complete Management Professionals who are not just trained on various domains such as Finance, Marketing, and HR etc. but are given specialized training on specific profiles under these domains. This makes the curriculum and the practical training aligned with industry's specific needs & requirements.

Interactive Classroom Session/ Group Discussion

These techniques are used for analyzing possible future events by considering alternative possible outcomes. By putting different minds all together to solve a problem, a best possible solution is reached. These methods present consciously several alternative future course of action.

Simulation Games, Quizzes and Team Exercises

Learning has to be fun. To exercises this, happen simulation games, quizzes and teambuilding exercises are built-in with-in the program. Some of these activities are :

a) Business Quiz

b) Outdoor Management Training (OMT)

c) Mock Stock Trade

Z to A Approach

We focus on Z to A approach (Guest Lectures, Industrial Visits, Management Games, Simulations, etc) which enables students to understand the application part of the ironical concepts first followed by its theoretical component. This helps in making complex concepts easier to understand and moreover students get a clear cut idea in relation to

1) When to apply the concept? 2) Where to apply? 3) How to apply?

ICT Classrooms

By incorporating multimedia in their instruction, teachers can capture attention, engage learners, explain difficult concepts, and inspire creativity. Moreover, the retention of the information given in the class also increases.

NDA Visit

Students interacting with well known author Mr. Gurucharan Das

Corporate Driven Student Mentorship

Besides guidance from regular faculty members and industry experts, each student is placed under a "Mentor cum Guide". The student will be constantly guided under the leadership of the Mentor in various aspects like grooming, communication skills, domain knowledge, networking skills, etc.

Conferences / Seminars / Summits / Management Games Workshops / Corporate Events

The theoretical inputs in functional areas like Marketing, HR, Finance, Operation and IT are further reinforced by conducting workshops from industry experts who share their hands on experience practical inputs with students. Workshops are conducted on contemporary topics which help in widening knowledge horizon of students. In order to ensure an environment of effective learning as team players, management games are conducted. It helps students in interacting, communicating and completing the tasks assigned to them more efficiently.

Management Learning through Films and Literature (MLFL)

Learning through movies make the students think (and feel) critically about the society they inhabit, the business firms and practices embedded in that society, the cultural and ethical diversity of people and contexts in which they will operate, and above all, to introspect on their role as individual moral agents.

Examination and Method of Assessment

Evaluation of student's progress is a continuous process. At IIEBM, we believe in a system of ongoing evaluation where students are assessed on a regular basis over and above the mid and end semester examinations.

The evaluation system is a dynamic one which is designed to make one aware as to where he / she stands in terms of his / her understanding of a subject / topic.

There is assessment of students by way of weekly quizzes (subject related and on general awareness & general knowledge), assignments, individual and group presentations, projects, PEP activities etc.

Students are required to be prepared at all times and are required to submit their assignments as per decided deadlines.

Break-up of 100 marks allotted for every subject is as follows:

- End Semester Exams : 40 % weightage.
- Mid Semester Exams : 60 % weightage.

Examinations / Re-Examination / Re-assessment / Backlogs :

Absence from internal exams, viva-voce, practicals and non-submission of assignments as per deadlines will make student ineligible for internal assessment. No excuses for the same will be entertained.

Students will be given the opportunity for re-examination in subjects they have failed or would like to improve their percentage.

Exam fee per subject will be charged for all backlogs / re-examinations / re-assessment of papers. Application form for the re-assessment / re-checking should be submitted within 7 days of the declaration of result or the dates declared from time to time along with the prescribed fee.

Students shall be allowed to carry maximum of 4 backlogs from any one or more semesters. Students with more than 4 backlogs will not be eligible for Internship (Winter and Summer) and Final Placement assistance by the Institute.

Placements
& Industry Interface

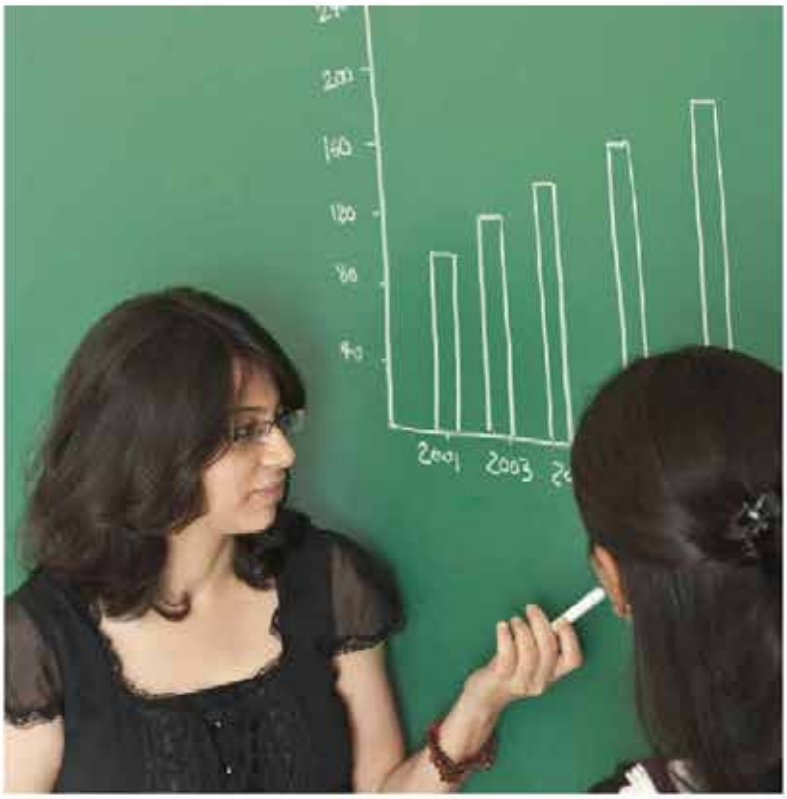

B-schools are NOT placement agencies. Jobs are ample but what is not ample is competent people with good knowledge, skill sets and right attitude.

We expect students to put in their best efforts and work hard during their two years stay at IIEBM and improve themselves and not just expect jobs at the end of the course. Students have to bear in mind that even if we have the best Placement Team in place, it is eventually them, who have to perform well in the recruitment process of companies which is becoming tougher by the day.

Many companies have an Aptitude Test, followed by Group Discussions and Personal Interviews as part of their selection process. Some companies have introduced Psychometric Assessment also as part of the selection process.

Some companies have an eligibility criterion where a candidate must have secured minimum 60% in his / her 10th, 12th, Graduation and 1st Year of the PG program to be eligible.

It is the duty of the Institute to get good openings for students in companies across different Industry Verticals & Specializations and it is the responsibility of students to perform well and get selected. We have maintained a placement track record of 94% - 96% for the past 20 plus years and are confident of maintaining and further improving the same.

An institute can get the best companies to the campus, but eventually selection entirely depends on the performance of a candidate.

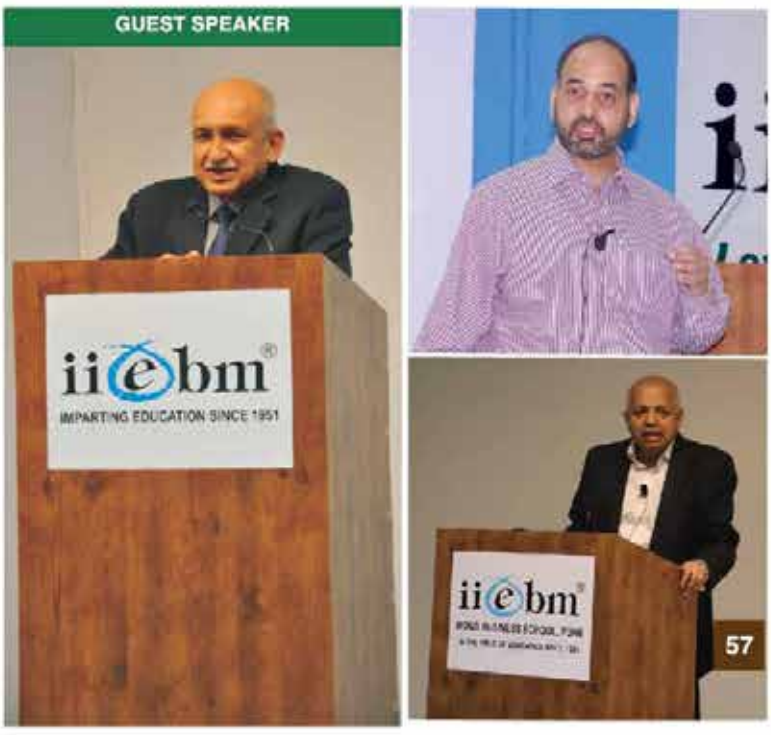

At IIEBM, it is our constant endeavor to give our students the highest levels of Industry Interaction.

Having completed over 20 years in the field of Management Education, we have a strong Alumni base who are at fairly senior positions in Indian and Multi National companies. We have also cultivated strong relationships with people from the Industry over the years.

One day per week (of every week in a semester) is dedicated for Industry Interaction where activities like Guest Lectures, Workshops, Seminars, Field Studies, Market Surveys, Live Projects, Industrial Visits etc. are arranged. There are bi-annual events like HR Meets, National Level Seminars etc. in addition to the above. We endeavor to give our students a platform to get an exposure to people from the Corporate World where they can showcase their knowledge, competence and skill sets.

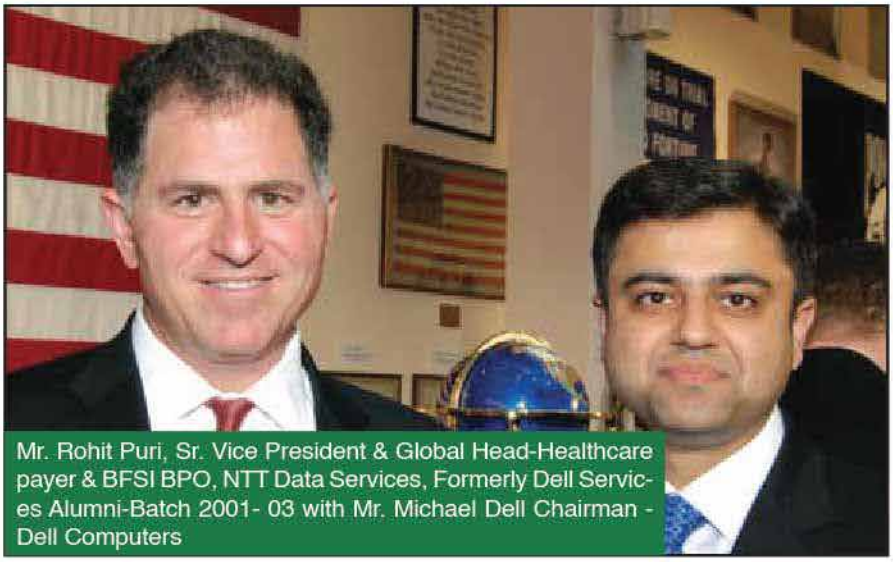

Our aim is not just to place students but rather groom them and make them a perfect fit for the corporate world. A Post Graduate Management Program is an induction of a student to the corporate world.

Despite knowing that placements is one of the major concern of a student while deciding on a B-school from the admission point of view, we urge you to realize that

INDUSTRY INTERACTION

SEMINARS, GUEST LECTURES, PANEL DISCUSSIONS, CORPORATE SUMMITS/ CORPORATE EVENTS

Seminars, Guest Lectures, Panel Discussions, Corporate Summits / Corporate Events (HR Meets) etc. are regularly arranged at the Institute where senior dignitaries from different Indian and Multi-National companies are invited to the Institute to share their vast knowledge and hands on experiences with the students.

This creates a platform for the students to interact with corporate as well as gives the Institute an opportunity to showcase the students to them.

INDUSTRIAL VISITS

Every semester students are sent to more than 2-3 leading manufacturing companies in Pune region for Industrial Visits. Some companies where students have been sent in the past are Cummins India, Kirloskar Brothers Ltd, Volkswagen India Ltd, Honeywell Automation Ltd, Exide Industries Ltd, LG, Apollo Tyres Ltd, Tata Motors Ltd, KSB Pumps Ltd, Coca -Cola, Sandvik Asia, Frito -lay etc. to name a few.

This enables students to correlate their theoretical inputs with the practical functioning of organizations as well as get an overview of the best practices being adopted by the companies.

FIELD SURVEYS AND LIVE PROJECTS

Students are attached with the industry to carry out Field Surveys and Market Research for them in different areas. All students have to undergo a **mandatory Live Project as part of their course curriculum.**

WINTER AND SUMMER INTERNSHIP PROGRAM

All students have to undergo two internships as part of the PGDM Program.

The Winter Internship is for a duration of 2 weeks which commences on completion of the first semester. This internship has to be done with an NGO. Some NGOs where our students have done their Winter Internships in the past are Concern India Foundation (CIF), CRY, Dignity Foundation, Blue Cross Society of Pune, Akanksha etc. to name a few.

The Summer Internship is for a duration of 8 - 12 weeks which commences on completion of the second semester This internship has to be done with Indian / Multi-National companies. List of companies where our students have done their summer Internship in the past are mentio ned 'Our Recruiters & Trainers' section of the Prospectus.

We attach students for their Summer Internship based on their specializations and in companies where they would like to eventually make a career. We have had a fairly successful ratio of SIPs being converted into PPOs in the past.

FINAL PLACEMENTS

Since inception, we have had an enviable placement track record of 94% - 96% with salaries ranging from INR 4.25 lacs p.a to INR 9.5 lacs p.a (CTC) and highest salary of INR 15 lacs p.a

Students with First Class & above (performance in 10th, 12th, Graduation & 1st Year of PGDM Program) are offered relatively higher salaries.

We have had a fairly good number of International Placement where salaries vary from country to country. The highest salary being drawn by our Alumni – Mr. Rohit Puri who was placed with Dell Inc. USA is INR 160 lacs per annum.

Every year we have companies visiting our Campus for their Pre Placement Talk and Campus Interviews. In the past, we have conducted many joint Campus Placement Drives where students from other campuses come to our campus for the recruitment drive.

As a student of IIEBM, one thing I found out is that in this corporate world you need "discipline" not only in your day to day activity but within yourself too. And this B-school really brought out that remarkable change in me when it comes to discipline which was clearly lacking prior admitting this college. It encourages person's talent and gives him/her chance to convert that passion into a goal. The course and skill development activities are planned in such a way which encourage the leadership qualities amongst the students. Rules and regulation of this college prepare us for the real situation which initially helps us to take up the responsibilities as well as accountability for the task entrusted.

As a result, a small towner like me who struggled with everything from English fluency to presentation skills now proudly flaunts himself for overcoming these weaknesses. I was also fortunate enough to be a part of several committees likes the discipline team, corporate relationship team etc. while following my passion towards healthy living. Life at IIEBM is a perfect blend of Joy and hardships. Coming here was like going for an exclusive world tour. Achievements, applauds, opportunities, exposure & culture this is what I witnessed and enjoyed at Indus Business School. It was because of the constant push and encouragement of my mentors that today I am placed with Markets and Markets as a Conference Producer. This place has shown me a different perspective towards life. Mentors at IIEBM have moulded me into a competitive individual who is now capable enough to walk enthusiastically into the corporate world.

We would like to thank all the professors and management of the Institute who have helped her in every situation and made her achieve those goals.

I got very positive feedbacks from the seniors which helped me to choose one of the best B-School of Pune. The key aspects that tempted me to join this institute are the PEP that helped me for overall transformation of my personality, dedicated ET and BWR sessions that improved my general awareness and the discipline which is the USP of this institute and also faculties who are very learned and co-operative. I am very thankful for this college that helped me groom myself and be a perfect match to the corporate world.

Anna Hazare with Mission RACE Team members

A mission for a cause

ROTARIAN Jai Singh, Managing Director Indus Business School (IBS) Pune, an initiative of IIEBM (Indian Institute of Education and Business Management, a 10-year old Management Institute, approved by AICTE and affiliated to Univ. of Pune), along with a group of eight rotaractors, who are also students of the same institute, completed a unique mission to promote awareness of the Polio and Skin Bank Project initiated by the Rotary Club, Khadki. They appealed to the people to be considerate towards the nation and raised awareness among the youth to join Rotaract.

The mission was epitomized by the word RACE which stands for:

Right education,
Awareness of medication,
Concern for the nation,
Eradication of Polio.

The team under leadership of Rtn. Jai Singh commenced their journey on September 30 2011 (September being 'New Generation' month of Rotary) from 'Tower of Victory' in Chittorgarh Fort (a monument symbolizing victory, which is what the group wanted to achieve for their mission) to their Institute in Pune, covering a distance of 1100 Kms through states of Rajasthan, Madhya Pradesh and Maharashtra.

The team completed the mission using a vehicle commonly used by farmers from regions of Punjab, Haryana, Rajasthan, UP known as a '*kissan gadi*', or '*jugad*' (a water pump mounted on a locally fabricated chassis with a gear box and radiator of a jeep).

En-route to Pune the team interacted with ten Rotary Clubs, hospitals, schools and colleges and made them aware of agendas of Mission-RACE.

Being in the field of Management Education for over a decade, Prof. Jai Singh, along with his team wanted to set an example to the youth from different schools and colleges to join Rotaract and contribute towards the society and nation in a positive manner.

While returning to Pune they met Anna Hazare at Ralegaon Siddhi to brief him about Mission-RACE.

Mission-RACE, which started from the 'Tower of Victory', was completed on October 6 at 12.30 am which also happened to be Vijayadashmi - a day of victory.

The team members of Mission RACE were privileged to meet dignitaries like Mr. Sharad Pawar, Shrimant Ram Raje Naik Nimbalkar (Cabinet Minister), Rtn. Prakash Telang, MD India Operations, Tata Motors, Rtn. Vandana Chavan to name a few who signed the banner of Mission-RACE and congratulated the team.

The *kissan gadi*, which was used to accomplish Mission RACE, was used for the World Polio Day Cycle Rally at Pune on October 23 2011. Mission-RACE, is truly a victorious mission.
